Chillon Castle, Lake Geneva

Travel via some of the most scenic and charming rail routes in Europe, passing forested valleys, Alpine meadows, sublime lakes, and historic old towns. This romantic touring holiday takes you from Lake Geneva, down into Mediterranean-style Ticino, back up to Lake Lucerne, and then into the lush countryside of the Saanenland.

Begin this touring holiday with a rail or air journey into Geneva, from where you travel on to Lausanne for your first night in Switzerland. Choose from our selection of luxury Lausanne hotels for this night, before catching a train the next morning to Montreux. Here, you change trains and head for Visp, where you change for Zermatt. Spend a few nights in Zermatt, taking in the sights of the Matterhorn, and a ride on the Gornergratbahn. Then the Glacier Express takes you to Brig, where you change for Domodossola to join the Centovalli Express. This iconic train journey is one of the most romantic in Europe, and takes you through to Locarno. Enjoy Lake Maggiore and the colourful streets here, before heading north to Lucerne on the Gotthard Panorama Express train and boat. Your time in Lucerne allows you to explore the lakeside, and perhaps travel further northeast to Zurich for a few hours. From here, travel down to Zweisimmen, where you join the GoldenPass Line for the remaining journey into the Saanenland. Your last stop is Gstaad or Schoenried before traveling once again by the GoldenPass Line into Montreux, and then on to Geneva for your return flight. If you intend to return home by train, we would recommend spending another night in Geneva before departure.

Day one: Arrive Geneva and train to Lausanne

Travel by rail or by air from London to Geneva on your first day. Perhaps spend an hour or two exploring the city, home to fine watch-making, the headquarters of the UN, and the Jet d'Eau fountain. Wander around the Vieille-Ville, the largest Old Town in Switzerland, stopping at the St Pierre Cathedral. From Geneva, catch a train along the northern shore of the lake to Lausanne. During your time in Lausanne, choose from its many elegant attractions; seek out the impressive historic monuments as well as the new, modern additions. Lausanne Cathedral is believed to be one of Europe's most beautiful Gothic monuments, crowned by spires of unusual purple and orange hues. A brand new Olympic Museum has recently opened in the heart of Lausanne's Old Town; three levels depict Olympic history in all its colourful grandeur. The placement of this new museum comes as a result of the Olympic Committee Headquarters being in Lausanne. The Olympic Park is adjoined to the museum, and is dotted with artworks, sports sculptures, and well-maintained flowers and trees. Beside the Olympic Park is the promenade at Ouchy Harbour, which, when lit up in the evening, will be one of the highlights of your trip. The promenade takes you from the gardens along to the Haldimand Tower, the Bellerive Swimming Pool, the Chateau d'Ouchy, and the port. Enjoy dinner in this beautiful area before returning to your hotel.

Day two: Lausanne to Zermatt

Today you travel by train from Lausanne to Zermatt. This train journey takes just shy of three hours, passing the 80 hectares of the stunning Lavaux Terraced Vineyards, Montreux and Chillon Castle, Martigny, and pausing at Visp while you change trains. As you enter Zermatt, the area's crowning glory will make itself apparent: the Matterhorn. Around it, over 400km of walking and hiking paths vein the landscape, allowing you to capture stunning panoramas of both Zermatt and the Matterhorn while uncovering more of the Alpine flora and fauna.

Day three: Zermatt

Small railways from Zermatt take you high up into the mountains, reaching 3000m above sea level, and the Glacier Paradise cable car transports you up to Europe's highest viewing platform. To extend both your experience of the railways of Valais and the mountains, take the Gornergratbahn up to the summit of the Gornergrat, from where you can bask in views of 38 mountain peaks. Consider visiting the Hornlihutte, where for decades climbers

Lake Lucerne

have famously stayed as they prepare to climb the Matterhorn, via the Hornli Ridge, the Zmutt Ridge, or the north wall. For something wholly unique, spend an hour or two at the Zermatt Matterhorn Museum, a faithfully recreated archaeological site. After a thrilling and busy day exploring this dynamic area, dine in one of Zermatt's abundant gourmet restaurants or back at your chosen hotel.

Day four: Zermatt to Locarno/Ascona on the Glacier Express and Centovalli Express

You board the Glacier Express at Zermatt and travel through the enchanting village of St Niklaus, punctuated by alpine chalets, rustic houses, and golden and green trees, to Brig. Here you might catch a glance of the 17th century Stockalper Castle, the emblem of Upper Valais and the largest 17th century private building in Switzerland. Change trains for Domodossola, where the Centovalli Express railway begins in earnest. Reputedly one of the most romantic train journeys in Europe, the train will take you through picturesque small villages in both northern Italy and southern Switzerland. The journey will take you through Re, home to the imposing Sanctuary of the Madonna of the Blood, which stands perched on the edge of a sheer cliff, before crossing over the border. Gently sloping valleys are interspersed with narrow gaps, tunnels, and bridges that reach across channels of thrashing white and turquoise water. In Ticino, the Centovalli Express ends in Locarno.

Day five: Locarno/Ascona

Your hotel is located in the peaceful adjacent town: Ascona. Here you can appreciate the Mediterranean feel of this canton, but with the bustle of Locarno at a distance. In Locarno, however, you may wish to visit one of the many 16th and 17th century churches, the 15th century Sanctuary of the Madonna del Sasso, or the Visconti Castle and its permanent exhibition of Roman glass. Should your visit fall on a Thursday, attend the local market to sample a few delicacies and watch the streets really come to life with colour and enthusiasm. Outside Locarno, adventurous guests may attempt to climb the Cadada Cimetta, from which you can see both the highest and lowest points of Switzerland simultaneously: the Valais High Alps and Lake Maggiore. In the evenings, return to Ascona to reclaim your bubble of peace and serenity.

Day six: Locarno to Lucerne on the Gotthard Panorama Express train and boat

You will next embark on a route shaped by the legend of the Swiss National Hero of Liberty: Wilhelm Tell. Begin this journey by catching a train to Bellinzona, home to three of Switzerland's best-preserved Medieval castles, where you may need to change for Fluelen. This train journey weaves its way along the valleys of Ticino, passing the waterfalls of Biasca, the Italianate architecture of Faido, a series of historic isolated chalets, and the town of Airolo. On your way out of Ticino, you will pass through the Gotthard Strassentunnel,

as well as the complex network of rail lines in Goschonen. Navigate the Gotthard Loop Tunnels as you travel through the canton of Uri towards the southernmost point of Lake Lucerne. The railway track follows the course of the Reuss River, across flat, wide valleys as it loses altitude. In Fluelen, disembark the train and make your way to the nearby marina. Board the Gotthard Panorama Express steamboat or salon motorboat as you begin the true exploration of Wilhelm Tell's story. Pass the Rütli Meadows, where Friedrich Schiller's telling of the tale is set, and which was also the site on which a treaty was signed in 1291 between Lake Lucerne's neighbouring cantons. The boat also stops off in Sisikon, home to Tell's Chapel and Tell's Slab, where Wilhelm Tell reputedly jumped from the bailiff's boat and pushed it back into the stormy lake waters in the original story. Disembark from the boat at the lido of the Swiss Museum of Transport in Lucerne where you stay next.

Day seven: Lucerne

An essential visit on any stay in Lucerne is the Chapel Bridge, the city's main landmark and the most photographed monument in Switzerland. Walk along the bridge, taking in the views of the Reuss River, the so-called Water Spike, and the Water Tower. For both historical significance and architectural beauty, visit the 17th century Jesuit Church, which overlooks the water and is topped by two droplet-shaped domes. Above the city is the Musegg Wall, a 14th century structure that once protected the city within. Though the city now sprawls outside of this wall, the nine defensive towers still remain, three of which are open to the public. Enjoy lunch in a pavement café on the Kornmarkt Square, beside the colourful Pfister Guildhall, the Hirschenplatz Square, or the Weinmarkt Square, where Lucerne swore its federal oath with Schwyz, Uri, and Unterwalden. To see some exemplary Swiss culture, visit the prestigious KKL Luzern gallery, the Rosengart Collection of works by Picasso and Klee, the Wagner Museum in Tribschen, and the Swiss Museum of Transport. Finish your days with a sumptuous dinner back at your hotel, or in one of Lucerne's many gourmet restaurants.

Day eight: Lucerne to Saanenland on the GoldenPass line

The first part of your next journey takes you to Interlaken via the Brunig Pass. Here, you can choose to stop off and spend a few hours enjoying the town's remarkable location before boarding another train to Zweisimmen via the Simmental, where you catch the GoldenPass Line for the remainder of the journey to the Saanenland. The distinctive golden carriages

GoldenPass Line

of the GoldenPass Line take you from Zweisimmen, the gateway of the Saanenland, to Schoenried and Gstaad where you stay next.

Day nine: Saanenland

On the border between the cantons of Bern and Vaud, the Saanenland marks the surreal convergence of five individual valleys. Schoenried itself sits on slightly higher ground than its famous neighbour, Gstaad. The area is known for its delicious Alpine dairy products, which are served in many of the 100 gourmet restaurants that line Gstaad's main promenade in the form of fondue or raclette. The boutique shops and quaint cafes housed inside these iconic chalets are well worth a few hours of your time as they capture a great deal of Swiss authenticity. The Molkerei Gstaad allows visitors to taste a selection of the 3,000 cheeses produced in the Saanenland. We would recommend spending a few hours in the Saanenland joining the dots between the traditional farmhouses that surround the fields outside Gstaad, and perhaps venturing further out on one of the hundreds of Alpine trails and paths. Adventurous visitors will want to take a trip up to Glacier 3000 to take in the views of 24 of the surrounding mountains that measure above 4000m. In the evenings, retire to your hotel in Schoenried or Gstaad for a gourmet dinner and a drink beside the cosy fireplace.

Day nine: Saanenland

Board the GoldenPass Line for the two hour journey from Schoenried to Montreux. After passing through Gstaad, the GoldenPass Line crosses the border into Vaud, stopping

first in Rougemont, and then Chateau-d'Oex. Here the mountainscapes are dotted with quaint chalets, small churches, and petit castles; an image that is very typical of the Pays-d'Enhaut. The villages you will pass next all retain their own individual architectural character, emerging out of plumes of evergreen trees. In Rossiniere and Montbovon, passengers can view the startling translucent turquoise water that runs in rivers crossed by ancient wooden bridges. At Les Avants, the train begins to wind its way down the hillside towards Montreux, where you catch an additional train to Geneva for your return flight. If you intend to travel home by rail, we would highly recommend spending an extra night in Geneva to break up the journey.

OPTIONAL

Extra nights in Geneva at the end of your tour, or in any other stopover.

MAP OF THE GRAND ROMANTIC SWISS RAIL TOUR

The map below illustrates the route outlined in this touring itinerary, with overnight stops and places of interest highlighted.

GENERAL INFORMATION

This rail holiday is one of several suggested rail holidays we can offer you exactly as it is but also with any alterations you might want including extra nights in one or more places or adding in extra places. All our tours can be extended so that you can include a longer stay in one mountain or lake resort too, perhaps at the end of the itinerary. Do call to discuss the options with our travel consultants.

OUR TOURS

Our rail tours are for individuals travelling on their own or in their own family group. You do not join a group and you are not escorted.

FLEXIBLE ARRANGEMENTS

Our arrangements are very flexible in that you choose to travel on any day you want, subject to availability of trains and hotels. As mentioned above, additional nights can be added at any point.

FLEX PASS INCLUDED

We include travel to and from your first and last hotel but also a Flex pass is included for the rest of the holiday, depending on its length. For example, on a long stay we would include an 8 day Flex pass. This gives you 8 non-consecutive but selected days of travel within a one-month period.

The pass gives you a choice that includes

- Unlimited travel by rail, road and waterway on your selected days of validity, including most panorama routes and public transport in 75 towns and cities
- Free admission to more than 490 museums on the selected days of validity
- Children under the age of 16 travel free of charge when accompanied by at least one parent holding the Swiss Family Card

If we have included a panoramic route in your holiday, we will automatically include any applicable supplements for that train.

TRAIN TIMES

We have planned our itineraries based on train times that work day by day at the time of planning which can be up to a year before you travel. Usually train times stay more or less the same every day, season by season. The times we have planned will be discussed with you at the time you enquire about the holiday and they are detailed to you in your written holiday quotation. It may be that the timetable changes between the planning of the itinerary and when you come to book but we can always adjust the itinerary to suit the actual train times and any requirements you have for particular times of travel.

FIRST OR SECOND CLASS

We will automatically include travel in second class but lots of our clients do upgrade to first class service. On Eurostar this is called Premier Standard for leisure travellers as it gives you an upgraded on-board service and more spacious seating but without paying for the fully-flexible business tickets. On the TGV trains from France to Switzerland, upgrading to first class gives you more spacious seating with increased legroom. Within Switzerland, first class gives you again more space and more comfortable seats, often with a quieter environment. The price of upgrading varies from route to route but is something that is not always proportionately a lot more on the price of the overall holiday, so well-worth considering.

LUGGAGE TRANSFER SERVICE

Swiss rail operates an efficient transfer service for your luggage. This works in a number of ways:

For travel to Switzerland by air, you can check-in your baggage with any airline, from any airport in the world and it will be forwarded to our destination station in Switzerland from Zurich, Bern or Geneva airports. Simply collect your baggage from the station at your destination.

For departure from Switzerland if flying with Swiss, you can check-in for your flight at the train station the day before you fly (major stations only). You receive your boarding pass and your seat allocation and your baggage will be transported onto the aircraft.

For departure from Switzerland with other airlines eg British Airways or Easyjet, you can have your baggage transported to the airport train station ie Zurich or Geneva and you collect it from there to take it to check-in as usual. Just allow enough time for the luggage to reach the airport station, so well before you travel. Your station will be able to advise a day or two beforehand.

Within Switzerland you can transfer your luggage from one location to another. The Fast Baggage service is available between 45 destinations. You just have to check-in your luggage before 9am at your departure station and collect it by 6pm on the same day at your destination (or sometimes the following day, depending on the actual destination). The cost of this service is approximately £17 per item.

TRANSFERS

Transfers in Paris between stations and from the station to each hotel are not automatically included in the price of the holiday. In Paris most clients choose to take a taxi between the stations rather than go on the Metro but we can arrange a private car with driver to take you in between. This is quite useful if you are a family group that can't fit into one Paris taxi. In Switzerland, depending on the location, hotels sometimes have their own transfer vehicles that they will send to collect you if we advise them in advance (eg in St Moritz and Zermatt this is usual) but elsewhere some hotels are within walking distance and others are a short taxi ride away.

OUR PRICES

The sample prices mentioned in this leaflet are generally a 'from' price based on the cheapest season of travel. However, train fares and hotel rates can change (up and down depending on offers), so we give you an accurate price for your holiday when we provide you with a quotation. Our sample prices should be used as an indication of how much a particular combination will cost and to show the differences on average between the hotel categories on offer.
